EXPERIENCE

Bluecore, New York, New York   **Dec 2015 – Dec 2017**

Senior Forward Deployed Engineer   Jul 2017 - Dec 2017
Mentored other members of the team; key liaison between technical and non-technical colleagues tasked with identifying issues, problem solving, and speaking with non-technical clients, with a particular focus on challenging client issues and requests. Developed side projects to improve overall efficiency and quality through improved process and technology.

Launch Lead, Forward Deployed Engineering   May 2016 - July 2017
Managed the technical side of on-boarding new clients; managed key corporate quarterly objectives aimed at standardizing and improving the on-boarding process. Acted as a technical adviser and ambassador for the non-technical team. On-boarded over 30 clients personally and implemented quality assurance of the technical implementation.

Forward Deployed Engineer   Dec 2015 - May 2016
Implemented and maintained SAAS product for over 50 clients and addressed specific requirements including file transfers, website scraping, setup of email campaigns and recommendation of specific strategy and approaches to technical and non-technical teams.

Peter Thomas Roth, New York, New York   **Fall 2014 - Winter 2015**
Assistant to Director of International Sales (Temp)
Assisted the Director of International Sales in account management of approximately 20 million dollars a year in sales
As a temp, independently covered for the Director of International Sales for over a week.

PCI Media Impact, New York, New York   **Jan 2014 - Jul 2014**
External Communications
Created, managed and updated website content through WordPress, reorganizing over 50 programs for consistency, clarity and organization. Implemented a new social media strategy resulting in an increase of approximately 50% in Facebook posts and Tweets.

Cammack Health (formerly Cammack LaRhette Consulting), New York, New York   **Jan 2012 - Jul 2013**
Analyst
Created financial projections for approximately 40 clients. Prepared financial and analytical reports and enrollment auditing as part of a two-person team. Developed and executed two technical workshops for all employees in Microsoft Excel and Claims Auditing. Collected and analyzed all data for a non-profit employee benefit survey.
