TECHNICAL SKILLS

Experienced：JavaScript, Node.js, Express.js, AngularJS, MongoDB, Mongoose, HTML5, CSS3, SASS, Twitter Bootstrap, Git, Github
Proficient：jQuery, Socket.io, OAuth, Responsive Design, Testing Frameworks (Jasmine, Mocha, Chai)
Basic：MySQL, Sequelize, Ruby, Twitter API, getUserMedia API

TECHNICAL PROJECTS

Make It Snappy - http://make-it-snappy.herokuapp.com/

Utilized getUserMedia API and an existing gesture library to incorporate microphone input for an interactive game with motion and sound controls
Used CSS animations with a modern, dynamic Angular front-end framework

CodeCast - http://www.codecast.space/

Implemented a dynamic educational tool for teaching programming using the MEANstack, web sockets and audio libraries
Created interactive live editor and video lecture functionality that allows users to dynamically interface with code, their classmates and their instructors

EXPERIENCE

Peter Thomas Roth , *Assistant to Director of International Sales* ,   New York, New York   Fall 2014 - Winter 2015

Assisted the Director of International Sales in account management of approximately 20 million dollars a year in sales
As a temp, covered for the Director of International Sales for over a week independently

PCI **Media Impact** , *External Communications* ,   New York, New York   Jan 2014 - Jul 2014

Created, managed and updated website content through WordPress, reorganizing over 50 programs for consistency, clarity and organization
Implemented a new social media strategy resulting in an approximate 50% increase in Facebook posts and Tweets

Cammack Health (formerly Cammack LaRhette Consulting) , *Analyst* ,   New York, New York   Jan 2012 - Jul 2013

Created financial projections for approximately 40 clients, financial and analytical reports and enrollment auditing as part of a two-person team
Developed and executed two technical workshops for all employees in Microsoft Excel and Claims Auditing
Collected and analyzed all data for a non profit employee benefit survey
